

## Education Grant Program

### Definition

Programs and events that will support and facilitate professional educational opportunities, dialogue and knowledge transfer for pharmacists, to ultimately improve the delivery of patient care in hospitals and collaborative healthcare settings.

### Competition Process

1. A call for education grant submissions will be published annually in the eBulletin in June, July and August for the current year's grants competition.
2. Submissions should be sent electronically to the designated CSHP Foundation administrator by mid-October of each year.
3. The CSHP Foundation Education Grant Committee will review submissions by December 1 of each year. Recommendations for funding will be forwarded to the CSHP Foundation.  
Note: The amount of funding allotted to each successful application will be determined by the Education Grant Committee and may be approved or revised by the CSHP Foundation Board of Trustees. The amount of the grant may be less than requested in the grant application.
4. All grant applicants will be notified of the outcome of the Committee's evaluation of their application by the Foundation Chair, and receive a summary of reviewer comments, provided by the Education Grant Committee.
5. Applications must achieve a minimum score in order to be considered for funding.
6. The educational initiative or program should be completed in one year from the date the grant is received. The Foundation will consider extensions in exceptional circumstances only.
7. Grant money will be released upon the signing of an agreement that will include the requirement of a 1000 word summary to be submitted within 3 months of the completion of the educational initiative or program.
8. A photograph of recipients and summaries of the funded educational initiatives undertaken by the recipients will be posted on the CSHP Foundation website and announced in CSHP publications (e.g. eBulletin, E-announcement).

### Eligibility Criteria for the Applicants
